

DCB Club Website – Initial Audit Report

Website: <https://www.dcbclub.org>

Prepared By: Niloy Kumar Ghosh
Executive – Digital Strategic Development

Date: 09 July 2026

Findings:

Critical Functional Issues

1. Homepage image Slider is not functioning properly.`
2. Image Upload functionality is not working; uploaded images are not rendering on the frontend.
3. Governing Body Profile section has inconsistent image rendering. Only the President's profile image displays correctly, while other member images appear as small thumbnails.
4. President's Message section is displaying raw backend/HTML code instead of properly rendered content.
5. Navigation Bar (Navbar) menu items are not clickable and require functionality fixes.
6. Concerns page/section is non-functional.
7. Projects page/section is non-functional.

UI/UX & Design Issues

8. Website color scheme is inconsistent and needs to be aligned with the official DCB Club brand identity.
9. Overall visual consistency requires improvement across all sections.
10. UI components require fine-tuning to ensure a clean and professional user experience.
11. Website is not fully responsive across all screen sizes.
12. Mobile, Tablet and Desktop responsiveness needs to be optimized.
13. Section spacing, alignment and layout consistency require refinement.
14. Typography hierarchy and component styling need standardization.
15. Overall website requires UI/UX optimization for a more modern and professional appearance.
